Project Title: Woodblock printing in Japan

I would like to build a multiple page website showcasing the breadth of work and beauty of woodblock printing in Japan. I feel like it would be very visually intriguing and informative. I would like each page to be about a different technique/style of printing (will figure these out later).

1. **Home page and intro** (background info, history)
2. **Style/Technique 1** - process, visual examples etc.
3. **Style/Technique 2**
4. **Style/Technique 3**
5. **Etc.**
